Papandreou Links Papadopoulos, CIA

ATHENS, Aug. 6 (UPI) — Socialist politician Andreas Papandreou today told the court trying former dictator George Papadopoulos and 19 associates on high treason charges that the defendants were tools of the CIA. He also said deposed King Constantine should be among the defendants.

Testifying before the appeal court sessions inside a prison, Papandreou said "the green light for the coup of April 21, 1967 was given from Washington." Papandreou said Washington was opposed to the country's Democratic governments because of U.S. policy toward Cyprus.
